THE TIMES EDITION

LONDON, March 26.—The Queen today sent a message to the House of Commons asking for the concurrence and the action for permanent service. The Queen's message is as follows:

The Queen has directed the Secretary of State for War to lay before the House of Commons the estimates for the additional expenditure which will be required for the purpose, and she relies upon the House to make provision for the same. She has also directed the Secretary of State for War to lay before the House of Commons a bill for the purpose of raising the number of men to be employed in the regular forces of the Crown

Democratic outrages upon Spanish residents of the Mississippi coast are of daily occurrence. The Spanish residents in Jefferson appeal to the Secretary of State, and there's talk of annexing a district of Spanish coast to the Mediterranean Sea.

A petition, signed by over 1,000 clergymen and laymen, including the most prominent divines in the country, was presented to President Cleveland yesterday urging him to enforce the Sixteenth Amendment.

Three Indiana men taken to the Illinois Legislature yesterday for the United States Senator. The Democrats did not vote. On the first ballot Logan received 130 votes, on the second 131, on the third 130, and on the fourth 131.

Secretary Stanton has prepared a circular letter to the Collectors of Customs requesting information as to the practicability of curtailing the expense of collecting the revenue from customs by reducing the present force of clerks and other employés. It is expected that the President will nominate a number of Collectors of Internal Revenue to-day or to-morrow.

The selling out of the reserve and the sinking will enable England to comply with Lord Stafford's demand for $2,000 troops. Lord Stafford supported the Government to-night either 10,000 soldiers or one Viceroy to take his place. The Ministry concluded that the safer fool would not wait for several or prance, and so advised her Majesty to sell out the reserve and soldiers.

Secretary Chase, when Secretary Stanton has employed to look over the Treasury accounts, is said to have discovered two important points. First, that the $42,000,000 of additional coin in the Treasury cannot be properly accounted as an asset, and that no fund will should be based upon his amount as part of the reserve; and second, that there has been an overissue of gold certificates to the amount of $40,000,000, and the amount ought to be deducted from the gold reserve in the Treasury in estimating the actual amount of gold in the possession of the Government. The gross trade are case of bookkeeping nicely.

FRANCE AND CHINA.

A Chinese Attack Upon the French Troops at Dong-Dang—Many Frenchmen Slain.

London, March 22.—[Special.]—There was considerable feeling in this country over the attack of a force of Chinese upon the French troops at Dong-Dang. The French have been under the impression that the Chinese had withdrawn from the frontier, and the attack was a very different kind from French encroachments in Tonquin and they took fairly serious view of it. The Chinese force is reported to be a regular division of the French army that has been stripped by the Chinese and was consequently unprepared to meet them.

The Times tonight says that the attack has not been told about Chamberlain's visit, and that the French now considered all other matters as of secondary importance to the Chinese affair.

THE SITUATION IN CHINA.

In the Chamber of Deputies today Deschanel asked the Government to publish the whole truth concerning the Dong-Dang affair. [SPECIALS FOR TRIBUNE.]

NEW YORK, March 26.—[Special.]—The publication of the "Star" ceased this morning. Mr. Stone, the editor of the last issue of the Star made no announcement last night or yesterday morning. Yesterday the paper appeared as usual. Today the Star has not a portion of the newspaper on it. The suspension is said to be due to the failure of certain stockholders to respond to a call for money. During the last two months an attempt was made to form a syndicate representing $50,000, which sum would have kept the paper over the difficulties, but only a portion of that amount was subscribed. The company was organized Jan. 1, 1881, with H. C. Stone as general business manager and William Henderson as managing editor. The capital stock was $50,000, and right next to the stockholders' names appeared the name of the Chicago Board of Trade. The Sun paper was issued March 17, 1833.
